we strive to provide best of breed products to be partners of choice for our vendors and clients.

WRAPPING : STRETCH - SHRINK WRAPPING

Stretch Wrap Usually Employed to Hold Loads and Products Together on Pallet for Transportation or Storage Purposes.

Whether UV Stretch Wrap, Vented Pallet Wrap, Anti-Static Stretch Film, Colored Stretch Film or Pre-Stretched Stretch Film, Shrink Wrapping is Usually Applied to Protect a Single or Multiple Product Form Dust or Weather, or to Tightly Combine Items Together. This Wrapping is Widely Used for Covering Foods.

WE CAN MAKE ALL CO O RS

GREENHOUSE :

Greenhouse Film is extraordinary. It is the best for performance and durability under a variety of severe environmental conditions. Our factory puts in more UV Protection for longer film life because it blocks harmful UV rays that can damage plastic and essentially harm your plants. We offer optimum light transmission +91% which lets more direct growing light in, while still keeping the harmful UV rays out. In addition, we have special resins infused to keep the sheeting flexible in cold weather, yet stable and tough under hot conditions. Our product also has the additional benefit of staying cleaner and attracting less dust while washing off dirt more easily.

Material	100% virgin LLDPE/LDPE with UV treated mulch film
Production process	agriculture mulch film for greenhouse weeds
Thickness	Min: 15 microns Max : 1000 microns
Length	50m,100m
width	Max : 6.4 mtr
color	Black, Silver, Green, Yellow, Pink
LifeSpan	2 years up to 6 years (Depends upon Customer Requirement)
